

OBJECTIVE

Passionate Full Stack Developer specializing in React.js, Node.js, and Express.js. Skilled in building scalable, high-performance web applications with a focus on responsiveness, user experience, and maintainable code. Eager to contribute to innovative projects and grow in a collaborative team environment.

EXPERIENCE & PROJECTS

Bliss Technologies MERN Stack Developer

[Oct 2024 - Jan 2024] Remote-Gujarat

- **Family Connect:** Led the development of the Family Connect platform, implementing robust CRUD operations with Node.js & Express.js. Engineered secure user authentication and authorization using JWT, and integrated Nodemailer for automated email notifications. Designed and built comprehensive Admin Panel and User Panel interfaces.
- **Farmer App:** Contributed to the creation of a Farmer Web Application, focusing on the development and optimization of the Admin Panel UI to enable efficient data management for farmers. **Deployment Hosting:** Deployed complete frontend and backend solutions for the projects on Vercel. Utilized AWS S3 for hosting static frontend assets, with domain management handled via GoDaddy.
- **Company Website:** Developed a fully responsive company website using React.js, ensuring a modern and user-friendly interface. Implemented dynamic content rendering, optimized performance, and deployed the application on Vercel for seamless accessibility. Integrated SEO best practices to enhance visibility and search rankings.

Why Global Service MERN Stack Developer

[May 2024 - Sep 2024] Chennai

- **Web Development Projects (Front End) :** Designed and deployed the company's official website, combining a modern frontend UI with seamless backend integration. Oversaw version control and repository management using **GitHub**.
- **Websites and Web Applications (Front End) :** Developed interactive menu sections and pages (Home, Blog, News, Contact Us, Dashboard, Footer, Navbar) using **React.js** and **Tailwind CSS**, ensuring seamless user experiences across devices. Collaborated with senior developers to resolve technical challenges and enhance responsive UI components.
- **Web Applications (Backend) :** Built dynamic platforms like Job Portal, Snap News, Whytap, and Himadri Ayurvedic, integrating **Node.js**, **Express.js**, and **MongoDB** for backend functionality. Created APIs for user authentication and implemented dynamic dashboards and news sections.

Self Projects

- **Task Manager, Resume, E-commerce Website, Portfolio :** Completed multiple projects utilizing HTML, CSS, JavaScript, ReactJs, NodeJs, and ExpressJs. These projects feature fully implemented CRUD operations and responsive designs, ensuring seamless functionality across devices, including mobile, desktop, and iPad. Some projects are showcased in my portfolio. **View Portfolio**  [<https://portfoliosite-bice-one.vercel.app/>]
